Introduction

Why is This Blogging E-Book Different From All Others?

Most blogging success stories I've read are about how somebody came out of nowhere, with little or no writing experience, and started a blog. They claim to have spent about \$50 on it.

In no time flat, they announce they've got 100,000 subscribers, 1 million monthly visitors, and earn \$1 million or more on autopilot, working a few hours a week.

Spoiler alert: My story is nothing like that.
